

## PROVISION OF GOOD DRINKING WATER

It is a fundamental truth recognized by all that access to safe, secure and sufficient source of fresh water is an indispensable resource for human survival, well-being and socio-economic development. As remarked by W.H. Auden “Thousands have lived without love, not one without water”.

That is the challenge we face today “ensuring universal and equitable access to safe and affordable drinking water”

### STATISTICS:

1. 844 million people worldwide lack even a basic drinking-water service, including 159 million people who are dependent on surface water.
2. Two billion people globally use a drinking water contaminated with feces.
3. Contaminated water alone accounts for an estimated 502 000 diarrhea deaths each year.
4. By 2025, it is estimated that half of the world’s population will be living in water-stressed areas.

This is the sad reality of today’s world. Thus Kofi Annan, former UN Secretary General remarked “the challenge of securing safe and plentiful water for all is one of the most daunting challenges faced by the world today”.

*World Humanitarian Foundation is thus committed to ensuring that everyone has access to readily available water through mobilization of resources in the form of cash, equipment, expert guidance etc.*

### TARGET

*To ensure that at least 75% of deprived communities in low- and middle- income countries will have access to readily available good drinking water by 2030.*

### STRATEGIC OBJECTIVES

1. To control and harvest ground-water through provision of bore hole and pipe-borne water.
2. Strengthen source water protection and resilience of drinking water supplies in these communities.
3. Partner with experts to develop adaptive plans and policies to ensure sustainability of our water projects.
4. Identify and take action to address unregulated contaminants of water
5. Assist low- and middle- income countries in building capacity for drinking water infrastructure financing and management.
6. Embark on yearly campaign against pollution of drinking water supplies.

Made possible through your **Donations** and **Help** towards our **CAUSE** “to provide good drinking water globally”

*To “Love Mankind” in action*
